Artist Residency Program

TAKSU Artist Residency Program (TARP) is a working retreat for local and international visual artists. TARP aims to promote transnational mobility and intercultural dialogue among artists. TARP provides artists with access to the contemporary art scene in the region and strengthen professional standards of participating artists.

Established in 1989, **TAKSU** is one of Southeast Asia's leading contemporary art galleries and art consultancy in the region. Credited with over 2 decades of experience in the field and having launched the career of many young and emerging artists today, we are at the forefront of the contemporary art scene in the region. Dedicated to its passion and commitment in fostering and nurturing all of its artists, **TAKSU** has gained its reputation for representing a top-notch selection of local and international artists with a distinct urban edge.

TAKSU's artists are recognised academically, regionally and internationally, and spans from established names in the industry to younger up-and-coming talents. Consistently growing and on the lookout for the discovery and addition to our artist representation, our galleries hold over thousands of artworks for selection.

Apart from exhibitions, **TAKSU** gives back to the art community by creating a platform for established and emerging artists to share their pool of creativity and knowledge.
